

Refused Derived Fuels (RDF)

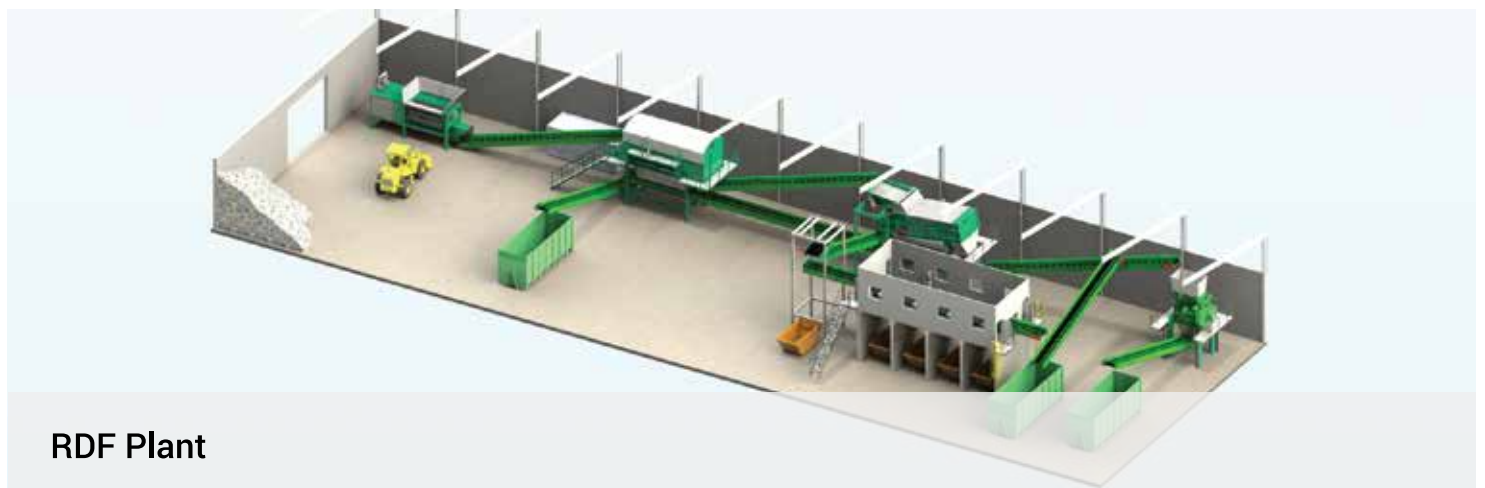

Phoenix Energy processes municipal waste into valuable secondary products of homogenous RDF or secondary fuels for cement kilns or power stations where dryer and pelletizer machines will be added to previous equipments.

PROCESS

SHREDDING AND DRYING

Shredding	Size reduction of refused material
Drying	Reduction of moisture of refused material
Pelletizing	Shaping and compaction of refused material (RDF)

RDF Plant

EQUIPMENT

RDF Fine Shredder
Size Reduction to 50-80mm

Pellets

RDF Dryer

RDF Pelletizer
